SmartUp Platform — Full Workflow Test Checklist

> **Purpose**: End-to-end manual QA covering CRM → Enrollment → Portal → Classroom → Demo Guest flow. Complete every checkbox in order. Mark ✅ pass / ❌ fail with notes.

Accounts Used

Role	Email	Notes
Academic Operator	*(AO account)*	
Batch Coordinator	*(BC account)*	
Teacher	*(teacher account)*	
Student *(test)*	*(created during test)*	
Ghost	*(ghost account)*	Observer in classroom test

SECTION A — CRM Lead Creation & Fee Check

Test 1 — Add a New Lead in CRM

- [ ] Log into CRM as an agent/admin
- [ ] Navigate to **Leads** → click **Add Lead**
- [ ] Fill in: Name, Phone, Email, Grade (e.g. 10), Board (e.g. CBSE), Region (e.g. Kerala)
- [ ] Save lead
- [ ] **Verify**: Lead appears in the Leads table with status `Inquiry` / `New`

Test 2 — Fee Checker in Lead Drawer

- [ ] Click on the lead to open the **Lead Drawer**
- [ ] Navigate to the **Fee Checker** tab (or section)
- [ ] **Verify**: Batch types matching the lead's grade + board are displayed (e.g. 1:1, 1:5, 1:15)
- [ ] **Verify**: Each card shows fee amount, OTP (advance) amount, and a savings badge (if applicable)
- [ ] **Verify**: No "Failed to load" or blank state errors

Test 3 — Send Enrollment Link

- [ ] In the Lead Drawer, click **Send Enrollment Link**
- [ ] Confirm the modal shows the correct student name and phone
- [ ] Click **Send**
- [ ] **Verify**: Success toast appears
- [ ] **Verify**: Lead timeline/notes shows an event like "Enrollment link sent"

- ☐ *(If WhatsApp configured)* **Verify**: WhatsApp message received on test phone with the enrollment link
- ☐ Copy the enrollment link URL for next steps

SECTION B — Student Enrollment (Public Flow)

Test 4 — Open Enrollment Link

- ☐ Open the enrollment link in a fresh browser (incognito)
- ☐ **Verify**: Welcome screen loads with student's pre-filled name and grade
- ☐ **Verify**: Multi-step form header shows steps (Student → Guardian → Academic → Batch → Payment)

Test 5 — Step 1: Student Details

- ☐ Fill in: Full name, DOB, gender, phone, email
- ☐ Click **Next**
- ☐ **Verify**: Validation fires for empty required fields
- ☐ **Verify**: Proceeds to next step

Test 6 — Step 2: Guardian Details

- ☐ Fill in: Parent/Guardian name, relationship, phone, email
- ☐ Click **Next**
- ☐ **Verify**: Form saves and moves to Academic step

Test 7 — Step 3: Academic Preferences

- ☐ Select Grade, Board (e.g. CBSE), Region (e.g. Kerala)
- ☐ **Verify**: Board options are derived from available fee structure (not hardcoded)
- ☐ **Verify**: Region options filter correctly
- ☐ Click **Next**

Test 8 — Step 4: Batch Type Selection

- ☐ **Verify**: Batch type cards are shown (e.g. 1:1, 1:5, 1:15) derived from fee structure
- ☐ Select **1:15** batch type
- ☐ **Verify**: Fee card shows: total fee, OTP/advance amount, savings badge (if any)
- ☐ **Verify**: A suitable batch is shown (or "no batch yet — preferences saved" message)
- ☐ Select the batch (if available) or proceed without one
- ☐ Click **Next**

Test 9 — Step 5: Payment

- ☐ **Verify**: Payment summary shows correct amount (OTP/advance for per-class, or full fee)

- [ ] Click **Pay Now** → Razorpay checkout opens
- [ ] Use test card: `4111 1111 1111 1111`, CVV `123`, Expiry `12/28`
- [ ] Complete payment
- [ ] **Verify**: Success screen shows with confirmation message
- [ ] **Verify**: Student receives confirmation email/WhatsApp *(check inbox)*

SECTION C — Post-Enrollment Verification

Test 10 — CRM Lead Stage Updated

- [ ] Return to CRM → find the lead created in Test 1
- [ ] **Verify**: Lead stage has changed to **Enrolled** / **Closed** / **Won**
- [ ] **Verify**: Lead timeline shows "Enrolled via link" or equivalent event

---

Test 11 — Fee Payment Record in CRM

- [ ] Open the lead drawer → go to **Payments** / **Fees** tab
- [ ] **Verify**: Payment record is visible with: amount, date, payment ID (Razorpay)
- [ ] **Verify**: Status shows **Paid** / **Completed**

Test 12 — Student in AO Dashboard (Students List)

- [ ] Log into portal as **Academic Operator**
- [ ] Go to **Students** tab
- [ ] **Verify**: The newly enrolled student appears in the list
- [ ] Click on student → **Verify**: profile shows correct Grade, Board, preferred batch type (`one_to_fifteen`)
- [ ] **Verify**: Fee record is linked and visible

Test 13 — Student Portal Login

- [ ] Log into portal with the student credentials (email set during enrollment)
- [ ] **Verify**: Student dashboard loads with correct role
- [ ] **Verify**: No server errors or broken tabs
- [ ] **Verify**: Fees tab shows payment history

SECTION D — Batch Creation & Configuration

Test 14 — AO Creates a Batch

- [ ] Log in as **Academic Operator**
- [ ] Go to **Batches** tab → click **Create Batch**
- [ ] Fill in: Batch name, Batch Type = **1:15**, Grade = 10, Board = CBSE, Subject(s)
- [ ] Add Notes (optional)
- [ ] Click **Create**

- ☐ **Verify**: Batch appears in the batch list with correct type label "1:15"
- ☐ **Verify**: No 500 error (`batches_batch_type_check` constraint — should now allow `one_to_fifteen`)

Test 15 — Add Student to Batch

- ☐ Open the batch created in Test 14
- ☐ Click **Add Student**
- ☐ Search for the enrolled student (from Test 9)
- ☐ **Verify**: Student appears with their preferred batch type badge
- ☐ Add student → **Verify**: Student is listed in batch roster
- ☐ **Verify**: Student's portal dashboard now shows the batch

---

Test 16 — Assign Teacher to Batch

- ☐ In the batch panel, click **Add Teacher**
- ☐ Select teacher, assign subject (e.g. Physics)
- ☐ Mark as **Primary Teacher**
- ☐ **Verify**: Teacher appears on the batch panel with subject label
- ☐ Log in as Teacher → **Verify**: Batch appears in teacher's **Batches** tab

---

Test 17 — Assign Batch Coordinator

- ☐ In the batch panel, set Batch Coordinator
- ☐ Save
- ☐ Log in as Batch Coordinator → **Verify**: Batch appears in their dashboard
- ☐ **Verify**: BC can see batch students and teacher

SECTION E — Session Scheduling & Classroom

Test 18 — AO Schedules a Session

- ☐ Log in as **Academic Operator**
- ☐ Go to **Sessions** tab → **Schedule Session**
- ☐ Select the batch created in Test 14
- ☐ Set date/time (e.g. today + 5 minutes from now for live testing)
- ☐ Set duration (e.g. 60 min), subject
- ☐ Save session
- ☐ **Verify**: Session appears in the batch session list
- ☐ **Verify**: Teacher receives notification/email of upcoming session

---

Test 19 — Teacher Starts the Session

- ☐ Log in as **Teacher**
- ☐ Go to **Sessions** tab → find the scheduled session

- [ ] Click **Start Session** / **Go Live**
- [ ] **Verify**: Session transitions to `live` status
- [ ] **Verify**: LiveKit room is created (no connection errors)
- [ ] **Verify**: Teacher is inside the classroom UI

Test 20 — BC Approves Go-Live (If Required)

- [ ] Log in as **Batch Coordinator** in another browser/tab
- [ ] **Verify**: Go-live approval request appears in BC dashboard / bell icon
- [ ] Click **Approve**
- [ ] **Verify**: Session shows as fully live after approval
- [ ] **Verify**: AO's "Today's Live" sidebar shows the session as live

---

Test 21 — Teacher Classroom Controls

> Tester stays inside teacher view after Test 19/20

- [ ] **Camera**: Toggle off and on — tile updates
- [ ] **Mic**: Mute/unmute — mic indicator updates
- [ ] **Screen Share**: Start screen share — students see shared screen
- [ ] **Hand Raise**: A student raises hand → teacher sees the notification
- [ ] **Chat**: Teacher sends a message → appears in chat panel
- [ ] **Mute Student**: Teacher mutes a specific student tile
- [ ] **Kick Student**: Test kick button on a guest/test tile (use ghost account)
- [ ] **Recording**: Start recording — recording indicator appears
- [ ] **Whiteboard**: If using Flutter tablet app, broadcast cutout overlay
- [ ] **Requests Bell**: Open requests dropdown — see pending hand raises / leave requests

---

Test 22 — Student Joins Classroom

- [ ] Log in as **Student** (enrolled student from Test 9)
- [ ] Go to **Sessions** / **Join Class** button for the live session
- [ ] **Verify**: Student enters classroom (YouTube-style immersive view)
- [ ] **Verify**: Student can see teacher video tile
- [ ] **Verify**: Student can send chat messages
- [ ] **Verify**: Student can raise hand (hand icon → teacher notified)
- [ ] **Verify**: Student **cannot** mute or kick other participants
- [ ] **Verify**: Attention monitoring (AI) is running (no console errors re: MediaPipe)

Test 23 — Batch Coordinator Classroom Controls

- [ ] Log in as **Batch Coordinator**
- [ ] Join session as observer / coordinator view
- [ ] **Verify**: BC sees all participant tiles
- [ ] **Verify**: BC sees critical alert bell (engagement drops)

- ☐ **Verify**: BC can approve/deny teacher requests (hand raise requests if configured)
- ☐ **Verify**: BC's approved/denied decision shows as badge on teacher side (auto-dismiss timer)
- ☐ **Verify**: Overtime badge appears if session runs past scheduled end time
- ☐ **Verify**: BC can click **Observe** link (opens coordinator live view)

Test 24 — Ghost Observer Joins

- ☐ Log in as **Ghost**
- ☐ Navigate to ghost dashboard → find live session → click Observe
- ☐ **Verify**: Ghost enters class silently (no mic/camera prompt)
- ☐ **Verify**: Ghost is NOT visible to teacher or students
- ☐ **Verify**: Ghost can see all video tiles and chat

Test 25 — Teacher Ends Session

- ☐ Teacher clicks **End Class**
- ☐ Confirm end class dialog
- ☐ **Verify**: All participants are disconnected
- ☐ **Verify**: Session status changes to ended in the dashboard
- ☐ **Verify**: Attendance is recorded for the student (AO → Attendance tab)
- ☐ **Verify**: Session summary email is sent (check teacher inbox)
- ☐ **Verify**: Recording stops and upload begins (if recording was started in Test 21)

SECTION F — CRM Demo / Guest Link Flow

Test 26 — Add New Prospect Lead in CRM

- ☐ Log into CRM
- ☐ Add a new lead: Name, Phone, Grade, Board — stage = **Inquiry** / **New**
- ☐ **Verify**: Lead created successfully

Test 27 — Find Live Session & Send Guest Link

- ☐ Ensure a session is live (use teacher account to start another session, or reuse Test 19 session)
- ☐ Open the **new lead** drawer in CRM
- ☐ Click **Send Demo / Guest Link**
- ☐ **Verify**: Session picker modal opens and shows the live session with a green **LIVE** badge
- ☐ Select the live session
- ☐ Click **Send Link** (for live) or **Schedule Link** (for upcoming)
- ☐ **Verify**: Success toast appears
- ☐ **Verify**: WhatsApp message sent to lead's phone with the guest link

---

Test 28 — Guest Enters Classroom (Live Session)

- ☐ Open the WhatsApp guest link in a fresh browser

- [ ] **Verify**: Guest waiting page loads with student name
- [ ] **Verify**: If session is live → guest joins immediately (or after lobby wait)
- [ ] Inside classroom:
  - [ ] Guest tile has a **purple "Guest" badge** visible to teacher
  - [ ] Guest can see class video
  - [ ] Guest **cannot** unmute mic or enable camera (read-only)
- [ ] Teacher sees guest in participant list

Test 29 — Guest Exits Class

- [ ] Guest clicks **Leave** button
- [ ] **Verify**: Guest exits cleanly (no error)
- [ ] **Verify**: Other participants are unaffected
- [ ] **Verify**: Teacher can see guest left in participant list

---

Test 30 — CRM Stage Updated After Demo

- [ ] Return to CRM → open the lead from Test 26
- [ ] **Verify**: Lead stage has changed to **Demo Completed** / **Demo Success** / **Trial Done**
- [ ] **Verify**: Lead timeline shows "Guest joined session" / "Demo completed" event
- [ ] **Verify**: Next action suggestion is shown (e.g. "Follow up and convert")

Test 31 — Upcoming Session Guest Link (Scheduled Demo)

- [ ] Create another new lead in CRM
- [ ] Schedule a session 10 minutes into the future (AO dashboard)
- [ ] In lead drawer → Send Guest Link
- [ ] **Verify**: Session picker shows the upcoming session with an amber **Upcoming · in X min** badge
- [ ] Click **Schedule Link**
- [ ] Open the guest link immediately
- [ ] **Verify**: Guest sees "Waiting for class to start" / lobby screen
- [ ] Start the session (teacher side)
- [ ] **Verify**: Guest auto-joins within ~4 seconds (polling picks up `status=live`)

Test 32 — Teacher Can Kick a Guest

- [ ] With a guest inside the classroom (from Test 28 or 31)
- [ ] Teacher clicks the ⋮ **/ Kick** option on the guest tile
- [ ] **Verify**: Kick API succeeds (no error toast on teacher side)
- [ ] **Verify**: Guest is immediately removed from the room
- [ ] **Verify**: Guest sees a "You have been removed" or redirect screen

Test Run Summary

Section	Tests	Pass	Fail	Blocked
A — CRM Lead & Fee Check	1–3			
B — Enrollment Flow	4–9			
C — Post-Enrollment	10–13			
D — Batch Setup	14–17			
E — Session & Classroom	18–25			
F — Guest / Demo Flow	26–32			
Total	**32**
