SmartUp Platform — Master Workflow Test Guide

> **Version:** May 2026
> **Purpose:** Complete end-to-end hands-on walkthrough — from CRM lead creation to live classroom with AI monitoring, exams, and real-time communication. Follow every step in order with real clicks.
> **Time to complete:** ~60–90 minutes for the full run.

🔑 Test Accounts

Role	Email	Password	URL
CRM Agent	`smartuplearningventures@gmail.com`	`Smartup@2026`	https://crm.smartuplearning.online
Owner	`smartuplearningventures@gmail.com`	`Smartup@2026`	https://smartuplearning.online/owner
Academic Operator (AO)	`chinjurp333@gmail.com`	`Smartup@2026`	https://smartuplearning.online/academic-operator
Batch Coordinator (BC)	`Academiccoordinator1SUO@gmail.com`	`Smartup@2026`	https://smartuplearning.online/batch-coordinator
Teacher	`salihr@smartupedu.in`	`Smartup@2026`	https://smartuplearning.online/teacher

> **Tip:** Use separate browser windows or incognito tabs for each role so you can switch quickly during classroom testing.

📋 Overview — What We're Testing

```
Phase 1  CRM → Create 2 student leads (1:1 + 1:15)
Phase 2  Enrollment links → students self-enroll + pay
Phase 3  AO Portal → verify enrollments, create batches, assign teacher + BC
Phase 4  BC Portal → auto-schedule sessions (date range)
Phase 5  Fee & Payment checks — per-session credits (1:1) vs annual invoice (1:15)
Phase 6  Start class → verify notifications
Phase 7  Live classroom — AI monitoring, click-and-hold PTT, exam generation
Phase 8  Post-class — reports, attendance, results
```

PHASE 1 — CRM: Add Two Student Leads

> **Login:** CRM → `smartuplearningventures@gmail.com` / `Smartup@2026` **URL:** https://crm.smartuplearning.online

---

1.1 — Add Lead A (1:1 Student)

- ☐ Go to **Leads** in the left sidebar.
- ☐ Click **+ Add Lead** (top-right button).
- ☐ Fill in the form:

  - **Name:** `Arjun Menon`
  - **Phone:** `9876543201`
  - **Email:** `arjun.test2026@gmail.com`
  - **Grade:** `10`
  - **Board:** `CBSE`
  - **Region:** `Kerala`
  - **Batch Type interest:** `1:1 Individual`
- ☐ Click **Save**.
- ☐ ✅ **Checkpoint:** Lead `Arjun Menon` appears in Leads table with status **Inquiry** or **New**.

1.2 — Check Fee in Lead Drawer

- ☐ Click on **Arjun Menon** to open the Lead Drawer (right panel).
- ☐ Find the **Fee Checker** tab or section inside the drawer.
- ☐ Look at the 1:1 fee card for Grade 10, CBSE, Kerala.
- ☐ ✅ **Checkpoint:** Card shows `₹900/session` (Grade 10, Kerala CBSE 1:1). OTP/advance amount shown. No blank/error state.

1.3 — Send Enrollment Link (Lead A)

- ☐ Still inside the Lead Drawer for Arjun Menon.
- ☐ Click **Send Enrollment Link**.
- ☐ Confirm the popup shows correct name and phone.
- ☐ Click **Send**.
- ☐ ✅ **Checkpoint:** Success toast fires. Lead timeline/notes shows "Enrollment link sent".
- ☐ ✅ **Checkpoint:** WhatsApp message received on `9876543201` with an enrollment link (if WhatsApp is configured).
- ☐ 📋 **Copy the enrollment link URL** — paste it into a Notepad for next phase.

1.4 — Add Lead B (1:15 Student)

Repeat steps 1.1–1.3 with:

- **Name:** `Divya Krishnan`
- **Phone:** `9876543202`
- **Email:** `divya.test2026@gmail.com`
- **Grade:** `9`
- **Board:** `CBSE`
- **Region:** `Kerala`
- **Batch Type interest:** `1:15 Group`
- ☐ ✅ **Checkpoint:** Fee card shows annual fee for 1:15 Grade 9 Kerala CBSE (e.g. `₹33,000/year`).

- ☐ ✅ **Checkpoint:** Enrollment link sent. Copy the URL.

1.5 — Verify Lead Status & Fee Screen in CRM (Both Leads)

> Do this after sending both enrollment links — still in the CRM.

For Arjun Menon:

- ☐ Go back to the **Leads** list and click on **Arjun Menon**.
- ☐ Check the lead **status** — should have updated to `Enrolled` or `Closed Won`.
- ☐ Open the **Fee** tab (or Payments section) inside the lead drawer.
- ☐ ✅ **Checkpoint:** Fee entry shows the amount charged (e.g. ₹900) and payment status `Paid`.
- ☐ ✅ **Checkpoint:** Lead stage shows **Closed / Enrolled** — no longer in Inquiry or Follow-up.

For Divya Krishnan:

- ☐ Click on **Divya Krishnan** in the Leads list.
- ☐ Check lead status → `Enrolled` / `Closed Won`.
- ☐ Open **Fee** tab → annual fee (₹33,000) shown as `Paid`.
- ☐ ✅ **Checkpoint:** Divya's lead is closed with payment confirmed in CRM.

> Open the enrollment links in **Incognito / Private Browser** so no CRM session interferes.

2.1 — Arjun Menon Self-Enrolls (1:1)

- ☐ Open the enrollment link for Arjun in a new incognito window.
- ☐ **Step 1 — Student Details:**
  - Full Name: `Arjun Menon` (pre-filled — confirm it)
  - DOB: `2010-03-15`
  - Gender: `Male`
  - Phone: `9876543201`
  - Email: `arjun.test2026@gmail.com`
  - Click **Next**
- ☐ **Step 2 — Guardian Details:**
  - Parent Name: `Rajan Menon`
  - Relationship: `Father`
  - Phone: `9876543211`
  - Email: `rajan.parent2026@gmail.com`
  - Click **Next**
- ☐ **Step 3 — Academic:**
  - Grade: `10`, Board: `CBSE`, Region: `Kerala`
  - Click **Next**
- ☐ **Step 4 — Batch Selection:**
  - Select `1:1 Individual` batch type
  - Subject: `Mathematics` (or as available)
  - Click **Next**
- ☐ **Step 5 — Payment:**
  - Amount shown: `₹900` (OTP / advance for 1st session or pack)

  - Click **Pay Now**
  - Use Razorpay test card: `4111 1111 1111 1111` | Exp: `12/27` | CVV: `123`
  - Complete payment
- ☐✅ **Checkpoint:** "Enrollment Successful" confirmation screen appears.
- ☐✅ **Checkpoint:** Email/WhatsApp received at `arjun.test2026@gmail.com` with login credentials.
- ☐✅ **Checkpoint:** Login credentials include portal URL, email, and a temporary password.

2.2 — Divya Krishnan Self-Enrolls (1:15)

Open Divya's enrollment link in a separate incognito window. Repeat the same steps:

- **Grade:** `9`, **Board:** `CBSE`, **Region:** `Kerala`
- **Batch Type:** `1:15 Group`
- **Payment:** Annual fee `₹33,000` (or whatever amount shows — use Razorpay test card)
- ☐✅ **Checkpoint:** Enrollment success screen for Divya.
- ☐✅ **Checkpoint:** Login credentials received.

> **Expected Difference:** Arjun (1:1) pays per-session credits. Divya (1:15) pays an annual lump sum that creates a dated invoice covering the full academic year.

PHASE 3 — AO Portal: Verify, Create Batches & Assign

> **Login:** AO → `chinjurp333@gmail.com` / `Smartup@2026` **URL:** https://smartuplearning.online/academic-operator

---

3.1 — Verify Enrollments

- ☐ Go to **Students** tab in the AO dashboard.
- ☐ Search for `Arjun` — his record should appear.
- ☐ Click his name to open the student profile.
- ☐✅ **Checkpoint:** Arjun's profile shows:
  - Portal role: `student`
  - Grade: 10, Board: CBSE, Region: Kerala
  - **Payment status:** Paid (credits added for 1:1)
  - Batch: None (not yet assigned)
- ☐ Search for `Divya` — repeat verification.
- ☐✅ **Checkpoint:** Divya's profile shows:
  - **Payment status:** Paid (annual invoice, covers full year)
  - Batch: None (not yet assigned)

3.2 — Create Batch A (1:1 for Arjun)

- ☐ Click the **Batches** tab in AO dashboard.

- ☐ Click **+ New Batch** or **Create Batch**.
- ☐ Fill in:
  - **Batch Name:** `Grade 10 CBSE 1:1 — Arjun Menon`
  - **Grade:** `10`
  - **Board:** `CBSE`
  - **Region:** `Kerala`
  - **Batch Type:** `1:1 Individual`
  - **Subject:** `Mathematics`
  - **Max Students:** `1`
- ☐ Click **Create**.
- ☐ ✅ **Checkpoint:** New batch appears in the Batches list with status `Active`.

3.3 — Create Batch B (1:15 for Divya)

Repeat 3.2 with:

- **Batch Name:** `Grade 9 CBSE 1:15 — Group`
- **Batch Type:** `1:15 Group`
- **Max Students:** `15`
- ☐ ✅ **Checkpoint:** Both batches now visible in Batches list.

3.4 — Add Students to Batches

For Arjun (1:1 batch):

- ☐ Click on `Grade 10 CBSE 1:1 — Arjun Menon` to open batch detail.
- ☐ Go to **Students** sub-tab.
- ☐ Click **Add Student**.
- ☐ Search `Arjun Menon` → select him.
- ☐ Click **Add / Confirm**.
- ☐ ✅ **Checkpoint:** Arjun appears in the batch student list. Welcome email sent automatically.

For Divya (1:15 batch):

- ☐ Open the `Grade 9 CBSE 1:15 — Group` batch.
- ☐ Repeat: Add **Divya Krishnan** to the batch.
- ☐ ✅ **Checkpoint:** Divya appears in the 1:15 batch student list.

> **Alternate path:** From the **Students** tab, find the student, click **Assign to Batch**, and pick the batch — both paths lead to the same result.

3.5 — Assign Teacher to Batches

For Arjun's batch:

- ☐ Inside `Grade 10 CBSE 1:1 — Arjun Menon`, go to **Teachers** sub-tab.

- ☐ Click **Assign Teacher**.
- ☐ Select `Salih R` (`salihr@smartupedu.in`) → Subject: `Mathematics`.
- ☐ Tick **Primary Teacher** → click **Assign**.
- ☐ ✅ **Checkpoint:** Teacher name appears in the batch with subject and "Primary" tag.

For Divya's batch:

- ☐ Open `Grade 9 CBSE 1:15 — Group`, repeat — assign the same or a different teacher.

3.6 — Assign Batch Coordinator

For both batches:

- ☐ Inside each batch detail, look for **Coordinator** section or **Settings**.
- ☐ Click **Assign Coordinator**.
- ☐ Select `Academiccoordinator1SUO@gmail.com` (Batch Coordinator).
- ☐ Click **Save**.
- ☐ ✅ **Checkpoint:** Coordinator name shown on the batch detail page for both batches.

PHASE 4 — BC Portal: Auto-Schedule Sessions

> **Login:** BC → `Academiccoordinator1SUO@gmail.com` / `Smartup@2026` **URL:** https://smartuplearning.online/batch-coordinator

---

4.1 — Open Batches List

- ☐ Go to the **Batches** tab in the BC dashboard.
- ☐ Both batches should appear (assigned in Phase 3).
- ☐ ✅ **Checkpoint:** Both `Grade 10 CBSE 1:1 — Arjun Menon` and `Grade 9 CBSE 1:15 — Group` appear.

4.2 — Auto-Schedule Sessions for the 1:1 Batch

- ☐ Click on `Grade 10 CBSE 1:1 — Arjun Menon`.
- ☐ Look for **Schedule Sessions** or **Auto-Schedule** button.
- ☐ Select **Auto-Schedule** mode.
- ☐ Fill in:
  - **From Date:** `2026-05-05` (tomorrow)
  - **To Date:** `2026-05-30`
  - **Days:** Monday, Wednesday, Friday
  - **Time:** `06:00 PM`
  - **Duration:** `60 min`
  - **Teacher:** Salih R (auto-filled from batch)
- ☐ Click **Generate / Schedule**.

- ☐✅ **Checkpoint:** Session list shows all Mon/Wed/Fri sessions from May 5–30 (approx 12 sessions). Each session has status **Scheduled**, teacher assigned, and the correct time.
- ☐✅ **Checkpoint:** Teacher (`Salih R`) receives an email/WhatsApp notification listing the scheduled sessions.
- ☐✅ **Checkpoint:** Student (`Arjun Menon`) receives a schedule summary by email/WhatsApp.

4.3 — Auto-Schedule Sessions for the 1:15 Batch

Repeat 4.2 for `Grade 9 CBSE 1:15 — Group`:

- **Days:** Tuesday, Thursday
- **Time:** `07:00 PM`
- **Duration:** `90 min`
- **From:** `2026-05-06`, **To:** `2026-05-29`
- ☐✅ **Checkpoint:** Sessions generated (approx 8–10 sessions). All students in the batch (Divya + any others) get the schedule notification.

PHASE 5 — Payment & Invoice Verification

5.1 — 1:1 Credit Check (Arjun)

> **Login:** AO or Owner dashboard → Student → Arjun Menon → Fees tab

- ☐ Open Arjun's student profile.
- ☐ Click **Fees / Payments** tab.
- ☐ Check the **session credit balance** — should reflect remaining sessions from his initial payment.
- ☐ Note: Each session attended will **deduct 1 credit**.
- ☐✅ **Checkpoint:**
  - Initial credit balance shown (e.g. 1 session for OTP payment, or pack size)
  - Sessions listed with status: upcoming
  - No "Payment Required" gate on upcoming sessions yet (if credits exist)

What to expect for 1:1 gating:
When credit balance reaches 0, Arjun will see a **"Payment Required"** gate before joining his next session. He must top up via the student dashboard → Fees → Pay.

5.2 — 1:15 Annual Invoice Check (Divya)

> **Login:** AO or Owner dashboard → Student → Divya Krishnan → Fees tab

- ☐ Open Divya's profile → **Fees / Payments** tab.
- ☐✅ **Checkpoint:**
  - An **annual invoice** exists for the full academic year amount (e.g. ₹33,000).
  - Invoice **status:** `Paid`
  - Invoice has a **period_start** and **period_end** covering the academic year (e.g. April 2026 – March 2027)

- No session credit counter — 1:15 students are gated by invoice date (not credits)

What to expect for 1:15 gating:
Divya will be blocked from sessions that fall **outside her paid invoice period**. If she tries to join a session scheduled after her annual plan expires, she'll see a fee gate. Within the paid period, all sessions are open.

5.3 — Check Invoice in Owner Dashboard

> **Login:** Owner → `smartuplearningventures@gmail.com` / `Smartup@2026`

- ☐ Go to **Fees** tab in Owner dashboard.
- ☐ Search for Arjun and Divya's invoices.
- ☐ ✅ **Checkpoint:**
  - Arjun: Per-session invoice(s) — each paid invoice has `amount_paise` matching ₹900 (Grade 10 1:1)
  - Divya: Annual invoice — `amount_paise` matches ₹33,000 (Grade 9 1:15), status `paid`, full date range visible

---

PHASE 6 — Start Class & Verify Notifications

> Approximately 5 minutes before the session start time. Or use **"Start Now"** option to start immediately.

6.1 — Teacher Starts Session

> **Login:** Teacher → `salihr@smartupedu.in` / `Smartup@2026` **URL:** https://smartuplearning.online/teacher

- ☐ Go to **Sessions** tab.
- ☐ Find today's upcoming session for Arjun's batch.
- ☐ Click **Start Class** (or **Go Live** button).
- ☐ ✅ **Checkpoint:** Browser asks for camera + microphone permission → allow both.
- ☐ ✅ **Checkpoint:** Teacher enters the waiting room / lobby.

6.2 — BC Approves Go-Live

> **Login:** BC tab/window

- ☐ BC dashboard should show a **Go-Live Request** alert for this session.
- ☐ Click **Approve**.
- ☐ ✅ **Checkpoint:** Teacher view transitions to **Live** state. Green "LIVE" indicator appears.
- ☐ ✅ **Checkpoint:** BC dashboard shows the session status as **Live**.

6.3 — Notifications Verification

Check the following notifications fired within 1–2 minutes of go-live:

Recipient	Channel	Expected Message
Arjun Menon (student)	WhatsApp + Email	"Your class is live now — join here: [link]"

Recipient	Channel	Expected Message
Rajan Menon (parent)	WhatsApp + Email	"Arjun's class has started"
AO	Email	Session started notification
BC	Dashboard	Session status → Live

- ☐✅ **Checkpoint:** WhatsApp message received on student's registered phone within 2 minutes.
- ☐✅ **Checkpoint:** Parent WhatsApp received (if parent phone on record).
- ☐✅ **Checkpoint:** No notification errors in Owner → System Logs (if accessible).

6.4 — Student Joins

> Open a new browser tab / incognito and log in as the student.

> **Student login:** `arjun.test2026@gmail.com` / (password from enrollment email)

- ☐ Go to **Sessions** tab on student dashboard.
- ☐ Click **Join Class** on the live session.
- ☐✅ **Checkpoint:** Student enters the classroom and appears as a participant in the teacher's view.
- ☐✅ **Checkpoint:** Teacher sees student's video tile (1:1 mode — full screen layout).

PHASE 7 — Live Classroom Testing

7.1 — Teacher View Basics

> In the **Teacher** browser tab

- ☐ Confirm the **Google Meet-style** layout with your own video large + student tiles on side.
- ☐ Test the toolbar:
  - ☐ Mute/unmute mic
  - ☐ Camera on/off
  - ☐ Screen share (click → pick a window)
- ☐ Open the **Chat** panel — type a test message.
- ☐✅ **Checkpoint:** Student sees teacher's screen share in their view.
- ☐✅ **Checkpoint:** Chat message appears on both teacher and student screens.

7.2 — AI Monitoring (Attention Tracker)

> The AI attention monitoring runs automatically in the student's browser.

- ☐ In the **Student** browser tab, look at the video feed — the system is tracking face position.
- ☐ Simulate low-attention events (yourself):
  - Look away from the screen for 5 seconds
  - Look down for 5 seconds
  - Block the camera with your hand briefly

- ☐✅ **Checkpoint (Teacher side):** After ~10 seconds, a **monitoring alert** badge or indicator appears on the student's tile showing low attention.
- ☐✅ **Checkpoint (AO side):**

> **Login:** AO → **Today's Live** tab (or Monitoring tab)

The AO monitoring panel shows:

- Arjun Menon → attention score dropping
- Event type: `looking_away` or `face_not_visible`
- Real-time graph updates

7.3 — BC Live Monitoring

> **Login:** BC → `Academiccoordinator1SUO@gmail.com` / `Smartup@2026`
> Go to **Live Monitor** tab

- ☐ BC should see the active session for Arjun's batch.
- ☐ Click into the session — Coordinator Live View opens.
- ☐ Verify BC can see:
  - Teacher video/audio stream
  - Student attendance status
  - AI monitoring score for each student
  - Chat feed
- ☐✅ **Checkpoint:** BC Live View shows teacher stream and Arjun's monitoring status.

7.4 — Click-and-Hold: Push-to-Talk (PTT)

> This lets the BC or a coordinator communicate directly with the teacher during class without interrupting the session audio.

In the BC Coordinator Live View:

- ☐ Find the **Push-to-Talk** button (microphone icon with "Hold to Talk" label).
- ☐ **Click and hold** the PTT button.
- ☐ While holding, speak a message: *"Teacher, please check Arjun's attention — he seems distracted."*
- ☐ **Release** the button to stop.
- ☐✅ **Checkpoint:** While holding the PTT button, a visual indicator shows "Transmitting..." or the mic is highlighted.
- ☐✅ **Checkpoint (Teacher side):** Teacher hears the BC's voice as a private overlay — students do NOT hear it.
- ☐✅ **Checkpoint:** After releasing, the teacher's audio resumes normally for students.

> **Note:** PTT uses a private data channel. Students' audio is not affected. Teacher hears BC in their headphones only.

7.5 — Raise Hand (Student Side)

> **In the Student browser tab**

- ☐ Find the **Raise Hand** button (hand icon).
- ☐ Click it.
- ☐ ✅ **Checkpoint:** Teacher sees a hand icon appear on Arjun's video tile.
- ☐ ✅ **Checkpoint:** Teacher can click **Lower Hand** or acknowledge from their toolbar.

7.6 — In-Session Exam Generation

> **In the Teacher** browser tab

- ☐ Look for the **Exam** panel or **Push Exam** button in the classroom toolbar.
- ☐ Click **Generate Exam** or **Push MCQ Exam**.
- ☐ Select:
  - **Topic:** (pick any curriculum topic shown, e.g. "Quadratic Equations")
  - **Questions:** `5`
  - **Time Limit:** `3 min`
- ☐ Click **Send Exam to Students**.
- ☐ ✅ **Checkpoint:** After 5–10 seconds (AI generation time), the exam appears on the teacher's side with the generated questions.
- ☐ ✅ **Checkpoint:** Student browser shows a popup/overlay: **"Exam Started — 3:00 remaining"** with 5 MCQ questions.

7.7 — Student Answers Exam

> **In the Student browser tab**

- ☐ Answer all 5 questions (right or wrong — it's a test).
- ☐ Click **Submit**.
- ☐ ✅ **Checkpoint:** Submission confirmation shown. Timer stops.
- ☐ ✅ **Checkpoint (Teacher side):** Teacher sees `1/1 students submitted` or a progress indicator.

7.8 — View Exam Results (Teacher)

- ☐ After time is up or all submitted, teacher sees **Show Results** button.
- ☐ Click it — results overlay appears showing each student's score.
- ☐ ✅ **Checkpoint:** Arjun's score shown as X/5. Correct/wrong answers highlighted.

7.9 — Anti-Cheat Check

> Verify the anti-cheat enforcement is active during the exam.

In the Student browser: While the exam is active:

- ☐ Try to switch to another browser tab — the tab switch should be recorded.
- ☐ Come back to the exam tab.

- ☐✅ **Checkpoint (Teacher side):** Teacher sees a **Tab Switch Alert** on Arjun's tile or in the monitoring panel.

PHASE 8 — End Class & Post-Class

8.1 — Teacher Ends Class

> **Teacher browser tab**

- ☐ Click **End Class** button.
- ☐ Confirm the dialog: "End session for all participants?"
- ☐ Click **End**.
- ☐✅ **Checkpoint:** All participants are disconnected. Room shows "Ended" state.
- ☐✅ **Checkpoint:** Teacher redirected to post-session summary page.

8.2 — Post-Session Notifications

Recipient	Expected
Arjun (student)	Session ended + exam result email
Rajan (parent)	Session attendance summary
AO	Session completed notification
Teacher	Attendance summary + session log

- ☐✅ **Checkpoint:** Email received at `arjun.test2026@gmail.com` with exam score.
- ☐✅ **Checkpoint:** WhatsApp received at student's number with session recap.

8.3 — Attendance Check

> **AO Login → Students → Arjun Menon → Attendance tab**

- ☐✅ **Checkpoint:** Today's session appears with:
  - Status: `Present`
  - Join time and leave time recorded
  - Duration close to actual session time

8.4 — Monitoring Report

> **AO Login → Monitoring tab** or **Student → Arjun → Reports**

- ☐✅ **Checkpoint:** AI monitoring report for today's session shows:
  - Total attention score %
  - Events breakdown: `looking_away`, `face_not_visible`, etc.
  - Timeline graph with dips at the times you looked away (Phase 7.2)

8.5 — Student Report (Student Login)

> **Student login:** `arjun.test2026@gmail.com`

- ☐ Go to **Reports** tab on student dashboard.
- ☐ ✅ **Checkpoint:** Dashboard shows:
  - Sessions attended: 1
  - Exam score from today: X/5
  - Attention score from today
  - "View Full Report" button works

PHASE 9 — 1:15 Batch: Additional Checks

9.1 — Schedule & Start a 1:15 Session

Repeat Phases 6–7 for **Divya's batch** (Grade 9 CBSE 1:15 Group).

Key differences to verify:

- 15-student capacity (currently only Divya is enrolled — that's OK)
- Session layout changes to **YouTube-style** for 1:15 (teacher large, students in a grid strip)
- Students see each other's video tiles (not just teacher)
- ☐ ✅ **Checkpoint:** Classroom layout is different from 1:1 — teacher is prominent, student tiles are smaller.

9.2 — Invoice Date Gate Test (1:15)

> To simulate expiry, ask the dev team to temporarily set Divya's invoice `period_end` to yesterday in the DB. Then:

- ☐ Try joining as Divya for a scheduled session.
- ☐ ✅ **Checkpoint:** Student sees a **Fee Gate** screen: "Your annual plan has expired. Renew to continue."
- ☐ ✅ **Checkpoint:** A **Pay Now** button links to the renewal payment page.

> Restore the invoice date after testing.

✅ FINAL SIGN-OFF CHECKLIST

Must Pass (Critical)

- ☐ CRM lead created → fee shown correctly
- ☐ Enrollment link sent and received
- ☐ CRM lead status closed and fee verified in CRM fee screen
- ☐ Student self-enrolled and paid via Razorpay
- ☐ Student appears in AO dashboard after enrollment
- ☐ Batch created, teacher assigned, BC assigned
- ☐ Sessions auto-scheduled from date range
- ☐ Notifications sent at each step (enrollment, schedule, go-live)
- ☐ Teacher starts class → BC approves → goes live
- ☐ Student joins → teacher sees them
- ☐ 1:1 credit balance reduces correctly
- ☐ 1:15 annual invoice shows full year coverage
- ☐ AI attention monitoring shows events in real time

- ☐ BC Live View shows session monitoring
- ☐ PTT (click-and-hold) heard by teacher, not students
- ☐ In-session exam generated by AI
- ☐ Student receives and submits exam
- ☐ Exam results shown to teacher
- ☐ Anti-cheat tab-switch recorded
- ☐ Class ended → attendance + results recorded
- ☐ Post-class emails/WhatsApp received

Should Pass (Important)

- ☐ Parent receives attendance notification
- ☐ 1:15 invoice date gate blocks expired student
- ☐ Raise Hand visible to teacher
- ☐ Screen share visible to student
- ☐ AI monitoring report generated post-session
- ☐ Student reports page shows correct data

Nice to Verify (Polish)

- ☐ Reminder notification 15 min before session
- ☐ Session countdown clock accurate on student dashboard
- ☐ Monitoring graph shows timeline correctly in AO
- ☐ Fee gate shows amount and reason clearly (not just a generic block)
- ☐ WhatsApp messages not truncated or broken on mobile

🔧 Common Issues & Quick Fixes

Issue	Likely Cause	Quick Fix
Enrollment link shows "expired"	Link > 7 days old	Generate a new one from CRM drawer
Student not appearing in AO after enrollment	Enrolled with different email	Check enrolled email vs CRM lead email
BC doesn't see Go-Live request	BC not logged in or session is in different batch	Verify batch coordinator assignment in Phase 3.6
PTT not working	Browser blocked mic permission	Check browser address bar for mic permission icon → allow
AI monitoring not tracking	Camera not granted or face not visible	Ensure face is well-lit and centered in camera frame
Exam generation timeout	Groq API slow	Wait 15 sec and retry; check network tab for errors
Student sees Fee Gate unexpectedly	Invoice date issue	Check `period_start/period_end` in Owner → Fees → Invoice detail
Ghost can see themselves in participant list	Role metadata issue	Check `portal_role` in LiveKit metadata — should be `ghost`

Document version: May 4, 2026 — SmartUp Platform Master Workflow Test
